-  Seat belt pretensioner
-  SRS control unit
-  Gas strut / Pre-loaded spring
-  High strength zone
-  Low-voltage battery
-  Petrol fuel tank

Note: Please see our [emergency response guide](#) for more information

#### 4. Access to the occupants

The SLS AMG is equipped with a safety system which uncouples the door hinges from the hinge arms when the vehicle comes to rest lying on its roof after an accident. Each door hinge (1) contains a pyrotechnic initiator (2) which is triggered by the restraint systems control unit. When the door lock is opened, the doors can be pulled off the hinge arms (3).
